PROFILE

I am a recent Interaction design graduate specialising in UX/UI design at AUT. After graduating, I am now looking for work experience in the design field. I have experience in user experience and graphic design that I would love to utilise in the work field. I am interested in creative areas such as fashion, graphic design, and anything digital and am eager to learn more about other outlets of creativity I can put into my work.

I'm a team player and a reliable person in the workplace. I've gained experience outside of design that has allowed me to take initiative and be adaptive to my work environment. My work experience in the design field is small but I'm highly motivated to learn what comes with taking on the responsibilities of the job I take on.

WORK EXPERIENCE
